## Information to be provided with this Application

Please include the following information with the completed Application Form.

- A copy of the NSW Health Accreditation and Manufacturer's specifications for proposed septic tank/system
- Design plan of proposed effluent disposal area (i.e. absorption trenches),
- A floor plan of the dwelling/building the septic system is to be connected to,
- An accurately drawn, detailed site plan drawn to scale and showing the following:
  - Proposed location of preferred wastewater treatment / disposal system and intended land application area,
  - Placement of vegetation on disposal area to facilitate nutrient and water uptake,
  - Buffer distances (using criteria from AS 1547:2012 and the Environment & Health Protection guidelines – On-site Sewage Management for Single Households (1998)), including
    - Position of any environmentally sensitive areas, including watercourses, intermittent waterways, dams, bores etc. (and the distance to each)
    - Distances from the proposed Dwelling, Boundaries, and other structures on site.

Is your land less than 1 hectare?

- A Wastewater Management Plan, including a site and soil assessment prepared by a suitably qualified consultant (using criteria from the Environment & Health Protection Guidelines – On-Site Sewage Management for Single Households (1998)) will need to be provided with your application

**Please Note:** Staff may request additional information including a Wastewater Management Plan (and site and soil assessment), depending on location and environmental sensitivity.
