

Boorowa Tennis Courts

Proposed SCF allocation: \$300,000

Background

The Boorowa Community do not have any public tennis courts. Boorowa Tennis Club lease courts that are privately owned and in a state of disrepair. Private ownership of the courts excludes the Club from accessing government funding to improve or relocate the facilities, with ongoing maintenance or upgrades of the aged infrastructure being prohibitive.

The Boorowa Tennis Club is a long serving club servicing the social and sporting needs and underpinned social connectivity of the Boorowa community for over 100 years, providing social and competitive tennis for adults and junior coaching for school age children.

Scope

The Tennis courts are proposed to be integrated into the showground precinct following community consultation, as part of the Boorowa Showground masterplan. The Funding will provide the necessary financial resources to complete the synthetic courts and lighting, to create a vital public amenity that will enable greater usability by the community.
