

## Harden Playground Refurbishments

Proposed SCF allocation: \$350,000

### Background

Harden has two main playgrounds located at Coddington Park and Newson Park. Significant works have been undertaken in the Newson Park Precinct in recent years with some improvements still required, particularly to lighting. The Coddington Park Precinct adjacent to Roberts Park and Murrumbidgee Creek has received less investment with an opportunity to make significant improvements.

### Scope

The scope of this proposed project is to improve existing facilities at Newson and Coddington Parks with a prioritised list to be developed. It is expected works will include lighting improvements at Newson Park and potential fencing, shading and equipment improvements at Coddington Park.

### Project Snapshot
